***Consolidated financial statements
of the Prudential Conglomerate at
December 31, 2021
and independent auditor's report***

(A free translation of the original in Portuguese)

Independent auditor's report on the consolidated financial statements of the prudential conglomerate

To the Board of Directors and Shareholders
Banco BOCOM BBM S.A.

Opinion

We have audited the accompanying consolidated financial statements of prudential conglomerate of Banco BOCOM BBM S.A. (the "Bank"), which comprise the consolidated balance sheet of the prudential conglomerate as at December 31, 2021 and the consolidated statements of operations, comprehensive income, changes in equity and cash flow for the year and six-month period then ended, and notes to the financial statements, including significant accounting policies and other explanatory information. These special purpose financial statements were prepared in accordance with specified procedures as established in resolution nº 4,280, from October 31, 2013, issued by National Monetary Council ("CMN"), and supplementary regulations of the Brazil Central Bank (BACEN), described in Note 2.

In our opinion, the financial statements of the prudential conglomerate referred to above present fairly, in all material respects, the financial position of the prudential conglomerate of Banco BOCOM BBM S.A. as at December 31, 2021, and the Bank's financial performance and cash flow, as well as the consolidated financial performance and cash flow, for the year and six-month period then ended, in accordance with the provisions for the preparation of consolidated financial statements of the prudential conglomerate established by resolution nº 4,280 of the CMN and supplementary regulations of BACEN, for the preparation of these special purpose consolidated financial statements, as described in the Note 2.

Basis for opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements of the prudential conglomerate section of our report. We are independent of the Bank and its companies of the prudential conglomerate in accordance with the ethical requirements established in the Code of Professional Ethics and Professional Standards issued by the Brazilian Federal Accounting Council, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of preparation of the consolidated financial statements of the prudential conglomerate

Without modifying our opinion, we draw attention to the Note 2, which discloses that the consolidated financial statements of the prudential conglomerate were prepared by management to comply with the requirements of resolution nº 4,280 of the CMN, and supplementary regulations of BACEN.

Banco BOCOM BBM S.A.

Consequently, our report on these consolidated financial statements was prepared exclusively for the compliance with these specific requirements and, accordingly, may not be suitable for another purpose.

Other matters

Financial statements of parent company and consolidated financial statements

Banco BOCOM BBM S.A. prepared a set of parent company and consolidated financial statements for general purposes referring to the year and six-month period then ended on December 31, 2021, in accordance with accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Brazilian Central Bank (BACEN), on which we issue an unmodified audit report, dated February 21, 2022.

Other information accompanying the consolidated financial statements of the prudential conglomerate and the auditor's report

The Bank's management is responsible for the other information that comprises the Management's Report.

Our opinion on the consolidated financial statements of the prudential conglomerate does not cover the Management's Report, and we do not express any form of audit conclusion thereon.

In connection with the audit of the consolidated financial statements of the prudential conglomerate, our responsibility is to read the Management's Report and, in doing so, consider whether this report is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement in the Management's Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the consolidated financial statements of the prudential conglomerate

Management is responsible for the preparation and fair presentation of the consolidated financial statements of the prudential conglomerate of Banco BOCOM BBM S.A. in accordance with resolution nº 4,280 of the National Monetary Council (CMN), and supplementary regulations of the Brazilian Central Bank (BACEN), whose main criteria and accounting policies are disclosed in the Notes 2 and 3, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements of the prudential conglomerate that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements of the prudential conglomerate, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance in the Bank and companies of the prudential conglomerate are responsible for overseeing the financial reporting process of the Bank and its companies.

Banco BOCOM BBM S.A.

Auditor's responsibilities for the audit of the consolidated financial statements of the prudential conglomerate

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements of the prudential conglomerate, prepared in accordance with resolution nº 4,280 of the National Monetary Council (CMN), and supplementary regulations of the Brazilian Central Bank (BACEN), as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and International Standards on Auditing, whereas the NBC TA 800 (Special Conditions - Audit Financial Statements in accordance with special purpose accounting conceptual structures), we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements of the prudential conglomerate, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Bank and companies of the prudential conglomerate.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements of prudential conglomerate or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements of the prudential conglomerate, including the disclosures, and whether these financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements of the prudential conglomerate. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Banco BOCOM BBM S.A.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Management's Report

(In thousands of Reais, unless otherwise indicated)

Who We Are

With agility and transparency, we meet the need for credit and financial services of companies established in Brazil. For the management and consultancy of individual assets (Wealth Management), we use methods that have been successfully tested and improved over decades and the expertise of a highly qualified and certified team. The credit funds area provides private credit funds, in addition to global funds.

Through ethical and transparent procedures, we focus our efforts on sustainably offering to our shareholders and customers the profitability of capital, as well as the Brazil-China integration; to our employees, opportunities for professional, material and intellectual growth, encouraging the search for cutting-edge knowledge, especially in the financial and technological areas.

Message from Management

The global economy recovered strongly in 2021, as vaccine rollout enabled the main economies to relax social distancing rules and mobility restrictions. Most countries in the northern hemisphere ended the year with more than 75% of the population fully immunized. In response to the recovery, governments of several countries dialed back the fiscal and monetary stimulus programs introduced during the pandemic, especially in light of concerns about the sustainability of the spending involved, as well as inflation. In Brazil, 67% of the population had been immunized (two doses) by the end of the year, and economic growth was driven mainly by the global recovery and rising commodity prices. Record tax collection, the end of extraordinary expenditure due to the pandemic and nominal GDP growth brought relief to the fiscal outlook and the debt-to-GDP ratio. In 2021, growth benefited from the resumption of activity, which had been hard hit by the pandemic in the previous year, but the prospects for 2022 are less favorable. The labor market and service sector continue to recover, but a restrictive monetary policy and the high level of household debt represent challenges to growth. Brazil's presidential election and adverse international financial conditions, including monetary tightening in the United States, add even more uncertainty to the outlook. The tax and administrative reform agenda remains decisive for the Brazilian economy to grow robustly and achieve fiscal sustainability in the years ahead.

In 2021, we continued with the requisite procedures in our offices to protect our staff and consequently their families and friends from contamination by COVID 19. Thanks to these procedures, in conjunction with the precautions taken by us all personally and the results of the public vaccination policy, we had only one case involving hospitalization among our entire staff. In September, we began the transition to a new normal by incentivizing a return to work at the office at the same time as our managers and senior executives created methods that permit remote working on some weekdays. In this manner, we sought to balance the need to spend less time commuting with more time to socialize with coworkers, improving the work experience and productivity in both cases. This transition was interrupted in December by the advent of the omicron variant, and resumed in February 2022.

Precautions and care to protect the health and wellbeing of the people with whom we interact in this second year of exceptionality join our sustainability procedures as we strive to have a positive socio-environmental impact, mitigate environmental and social risks, and comply with laws and regulations, both external and internal, always ensuring that governance is transparent and aligned with the interests of all our stakeholders.

The continuing pandemic and its economic impact on society in 2021 reinforced the importance of the bank's corporate support for actions targeting the local community and research on COVID-19. We donated baskets of staples to poor families living in the vicinity of our Rio de Janeiro office. We supported COVID-19 Analytics, a tool developed by researchers at the Pontifical Catholic University of Rio de Janeiro (PUC-Rio) to monitor the evolution of the pandemic. Alongside actions directly relating to the pandemic, we advanced our internal and external ESG initiatives. Internally, we formalized our ESG Committee and Women's Committee. The latter's remit is to increase recruitment of women and promote their careers. Our external initiatives include a continuing commitment to support education and training in economics and technology by awarding scholarships for study at PUC-Rio, Getúlio Vargas Foundation (FGV) and the Aeronautics Institute of Technology (ITA), and by sponsoring the 42 Rio coding school. Inspired by our belief in the importance of supporting socio-environmental projects that are capable of having a positive impact on society, we began the process of sponsorship via federal tax incentives such as the Rouanet Law and the Sports Incentive Law. In 2021, we allocated approximately BRL 900,000 to four projects. Since 2019, at the end of each year we have participated in the project Natal de Emoções (Christmas Feelings) by donating food baskets and personal hygiene products to philanthropic institutions. We remain committed to these actions in 2022, and will continue to sponsor projects with high social and environmental returns, contributing to the sustainable development of the economy and society.

Brazil's economic recovery in 2021, combined with the efforts of our staff and our focus on identifying the needs of our clients, enabled us to maintain the growth of our activities and of our profitability. The product diversification we systematically seek to offer clients in order to develop our relationships changed the composition of our income, with the capital markets and financial protection via derivatives-based hedging accounting for a growing share. Wealth management and financial services reached 24.6% of total income.

Message from Management (Continued)

We are an Asian bank, and the countries of Asia that responded promptly to the public health crisis as it began are now reaping the fruits of this strategy. In China, the policy of case control and monitoring was successful, and the economy grew 8.1% in 2021. In contrast with the other developed countries, China's fiscal discipline during the pandemic allows it to opt for more expansionary fiscal and monetary policies in response to the prospect of slower growth in 2022. The deterioration of the real estate market and decelerating consumption are guiding the government's planning and actions toward stable growth, with a focus on economic development, a reduction in inequality, and the use of technology to achieve sustainable growth. This vision leads us to seek opportunities and means to integrate the Brazilian market with those of Asia, especially China. This is why we were the first Latin American bank to join Bond Connect, the main platform for the purchase of bonds on China's local market.

The global economic recovery that took place in 2021 was accompanied by changes in consumer habits, supply chains, and the labor market, especially the types of available professionals and jobs. These factors, previously witnessed only at times of large-scale war, alongside widespread demand pressures due to low or negative real interest rates, present challenges to states, governments, business organizations and individuals. We must take this into account in our work in 2022.

Performance of Prudential Conglomerate

The Prudential Conglomerate recorded equity of R\$ 841 million and net income of R\$ 147 million on December 31, 2021, which corresponds to annual profitability of 18.37%, calculated based on the average equity for the period.

Total assets on December 31, 2021 amounted to R\$ 14,184 million. The amount raised in the domestic and foreign markets totaled R\$ 11,008 million at end of the year. The Bank's Basel Capital Adequacy Ratio was 12.64% at the end of the year.

Corporate Credit

The expanded credit portfolio reached R\$ 10.33 billion, including export-import finance and guarantees such as sureties and avals, and we actively participated in the extension of credit facilities as part of the measures implemented to mitigate the economic impact of the pandemic via PEAC and BNDES, for a total of R\$ 2.5 billion.

Wealth Management

Using constantly updated tools to manage the assets of Brazilian and foreign clients, we offer a range of financial products via an open platform and global investment opportunities suited to long-term objectives. Assets under management totaled R\$ 9.3 billion in December 2021.

Asset Management

Asset Management offers investment funds with a medium and long term horizon. In addition to private credit funds, global equity funds ESG, US and China, focus on sustainability, return on US companies and return on Chinese companies, respectively. Our main differentials are the robust management processes, using macro research, credit analysis and monitoring. In December 2021, assets invested in the funds totaled R\$ 1.1 billion.

People

We are recognized for identifying and developing talents, valuing the search for cutting-edge knowledge and encouraging people who want to achieve their material and intellectual goals with the support of practical and academic experience. We know the importance of teaching and motivating those who join us, in order to discover new ways to do our job better. We are committed to maintaining a meritocratic, dynamic, transparent and diverse work environment, taking into account the dignity and well-being of the social groups with which we interact.

Management's Report

(In thousands of Reais, unless otherwise indicated)

Credit Rating

In our point of view, the classification of the rating agencies are an important source of transparent and independent assessment of the quality of our credit.

Moody's Investors Service assigned the ratings of Banco BOCOM BBM on June 30, 2021. On a global scale, "Ba1" rating was assigned to local and foreign currency deposits, with a notch above the Brazilian rating ("Ba2") and "Ba1" for deposits in foreign currency, and "stable perspective". In the national scale, the "Aaa.br" rating was assigned by the Moody's Local Brazil, in July 12, 2021, with "stable perspective", the best possible credit rating in this category.

In addition, on August 24, 2021, Fitch Ratings assigned the long-term national rating "AAA (bra)", the highest possible rating in this category. On a global scale, long-term issuer default ratings (IDR) "BB" and "BB+" were assigned in foreign currency and local currency, respectively, keeping above the sovereign rating ("BB-"). BOCOM BBM's long-term IDR prospects reflect those of sovereign ratings.

Securities Portfolio

The Sales & Trading area is responsible for managing and negotiating corporate securities. The scope of this business unit includes the active negotiation of corporate securities in the secondary market, thus, together with the reorganization.

Bank Segmentation Transition

In June 2020, Banco BOCOM BBM S.A. completed 3 six-month periods with the Total Exposure/GPD ratio higher than 0.1%, thus being subject to the regulation of the S3 segment at the end of 2020, according to Article 8 of Resolution No. 4,553 of 2017.

The accompanying notes are an integral part of these financial statements

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

1. Operations

Banco BOCOM BBM is the leading institution of the Prudential Conglomerate (Note 2) and is authorized to operate as finance bank with the following portfolios:

- Commercial;
- Investment;
- Loan, Financing and Investment;
- Foreign Exchange;
- Energy trading.

Prudential Conglomerate operates as a group of institutions which operate together in the financial market, with certain operations involving co-participation or intermediation of associated institutions which are part of Banco BOCOM BBM Financial Group. The benefits of services rendered by such institutions and the costs of the Financial Group's shared operating and administrative structures are fully or individually absorbed, which is practical and reasonable in the circumstances.

2. Presentation of the Financial Statements and Consolidation Criteria

The financial statements of the Prudential Conglomerate were prepared in accordance with the Resolution No. 4,280/2013, of the Brazilian National Monetary Council (CMN), and Circular Letter No. 3,701/2015 of the Central Bank of Brazil (BACEN), which are elaborated based on the accounting guidelines arising from the Laws No. 4,595/64 (National Financial System Law) and No. 6,404/76 (Corporation Law), including the amendments introduced by the Laws No.11,638/07 and No. 11,941/09, in compliance with the standards and instructions from CMN, BACEN, Federal Accounting Council (CFC) and the accounting practices adopted in Brazil applicable to financial institutions regulated by the BACEN.

The preparation of these statements in accordance with the accounting practices adopted in Brazil, applicable to financial institutions, requires management to use judgment in the determination and recording of accounting estimates, when applicable. Significant assets and liabilities subject to these estimates and assumptions include: allowance for doubtful accounts, realization of deferred tax assets, provision for labor, tax and civil claims, valuation of financial instruments and other provisions. The definitive values of the transactions involving these estimates will only be known at the time of their settlement.

As of May 2020, the amendments to CMN Resolution No. 4,818/20 and BACEN Resolution No. 2/20 were included in Banco Bocom BBM's consolidated financial statements. The main objective of these standards is to comply with the guidelines for the presentation of financial statements in accordance with international accounting standards, International Financial Reporting Standards (IFRS). The main changes implemented were: the Balance Sheets for the period are presented in comparison with the end of the immediately preceding year and the other statements are compared with the same periods of the previous year for which they were presented; and the inclusion of the Statement of Comprehensive Income. The changes implemented by the new standards had no impact in the Net Income or Shareholders' Equity.

2.1 Consolidation

The Prudential Conglomerate's financial statements were prepared in accordance with the consolidation criteria stated by BACEN's Resolution No. 4,280/2013, which includes financial institutions and other institutions authorized to operate by the Central Bank of Brazil.

In the consolidation process of the entities participating in the Prudential Conglomerate, at the base date, there was an adjustment in order that the same classifications, criteria, procedures and accounting practices used in the lead institution are applied in the evaluation and recognition of the assets, liabilities, revenues and expenses, with the following eliminations:

- Capital share, reserves and accumulated results held between the institutions (it also should be noted that there is no intercompany transactions);
- Balances of current accounts and other Assets and/or Liabilities between the institutions, whose balance sheets were consolidated; and
- The effects on profit or loss arising from significant transactions between these institutions.

The Prudential Conglomerate financial statements comprise the financial statements at December 31, 2021 and December 31, 2020 of the following institutions:

Notes to the financial statements as at December 31, 2021

(In thousands of Reais, unless otherwise indicated)

2.1 Consolidation (continued)

Banco BOCOM BBM S.A. and Nassau branch

BBM Bank Ltd. (a)

BOCOM BBM Corretora de Câmbio e Valores Mobiliários S.A. (b)

Bahia Fund (c)

The Southern Atlantic Investments (b)

Jiang Fundo de Investimento Multimercado Credito Privado Investimento no Exterior (b)

Haitan Fund (a)

Tai Yang Fund (a)

- (a) The indirect participation of 100% of Banco BOCOM BBM in the social capital of BBM Bank Ltd., Bahia Fund, Haitan Fund and Tai Yang Fund were eliminated from the Prudential Conglomerate.
- (b) Banco BOCOM BBM directly holds 100% of the capital of these entities. The consolidation of Jiang FIM CPPIE has started at March 2018.
- (c) Bahia Fund was dissolved on May 27, 2021 in the Cayman Islands. All of its shares were redeemed by The Southern Atlantic Investments, Ltd.

3. Significant Accounting Practices

(a) Results of operations

Recorded on an accrual basis.

According to BACEN Resolution No. 2/20, recurring and non-recurring results were presented separately.

	Prudential Conglomerate		
	Second Half of 2021	12/31/2021	12/31/2020
Recurring Net Income	83,825	146,933	120,929
Non-recurring Events	35	466	(4,357)
Fines	(68)	(185)	(178)
(Provisions)/Reversals for contingencies	139	(144)	(3,603)
Provision for devaluation of properties not for use (BNDU)	-	-	(2,600)
Result from sale of properties not for use (BNDU)	-	1,261	(1,540)
Income tax and social contribution	(36)	(466)	3,564
Net Income	83,860	147,399	116,572

(b) Marketable securities and derivative financial instruments

In accordance with BACEN Circular Letter No. 3,068, securities are classified into the following categories:

I- Trading securities;

II- Securities available for sale;

III- Securities held up to maturity.

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

3. Significant Accounting Practices (Continued)

Securities classified in categories I and II are adjusted to market value, being the adjustment of the former directly accounted in the result and the adjustment of the latter in specific equity account, net of tax effects. Securities classified as "held up to maturity" are evaluated based on the cost plus the earnings.

Derivative financial instruments are adjusted to market value, in accordance with BACEN Circular Letter No. 3,082.

Investment fund quotas are restated monthly based on the quota value disclosed by the Administrators of the funds in which funds are invested. The appreciation and depreciation of investment fund quotas are presented in "Result from transactions with marketable securities".

(c) Current and non-current assets

These are presented at their realizable value, including, when applicable, the earnings and monetary variations (on a pro rata basis) and foreign exchange variations, less corresponding proceeds from future realization and/or provision for losses. Balances maturing within 12 months (or 360 days) are classified as current assets.

(d) Permanent assets

These are stated at cost, plus the following aspects:

- * Evaluation of the significant investments in subsidiaries on an equity accounting basis.
- * Depreciation of property and equipment in use and lease calculated on a straight-line basis, based on annual rates that reflect the economic useful life of the assets, is as following: properties in use - 4%; furniture and utensils - 10% and data processing - 20%.
- * Amortization of intangible assets calculated according to the economic useful life of the asset.

In accordance with CMN Resolution No. 4,534/16, financial institutions and institutions authorized to operate by BACEN cannot record Deferred Assets. Balances recorded as deferred assets at the date this resolution became effective, except for lease losses to amortize, must be:

- I- Reclassified to the proper asset accounts, according to the operation nature, when they refer to items that constitute an asset, according to the effective regulation; and
- II- Amortized on a straight-line basis up to December 31, 2021, in the other cases.

(e) Current liabilities and long-term liabilities

These are stated at their known or calculable values including, whenever applicable, the charges and the monetary (on a daily pro rata basis) and exchange variations, less the corresponding expenses to be allocated. Balances maturing within 12 months (or 360 days) are classified as Current Liabilities.

(f) Income tax and social contribution

The provision for income tax is set up based on the taxable profit, at a 15% rate, plus 10% surcharge on annual taxable profit exceeding R\$ 240 thousand. The provision for social contribution tax is set up at the rate of 20%.

The deferred tax assets and liabilities arising from temporary differences were recognized in accordance with CMN Resolutions No. 3,059 of December 20, 2002, and No. 3.355, of March 31, 2006, and they take into account the history of profitability and the expected generation of future taxable income supported by technical feasibility studies. The deferred taxes were constituted based on the expected income tax of 25% and social contribution rates of 15% and 20%, since used while the rate is effective.

The president Jair Bolsonaro approved the Law No. 14,183, of 2021, arising from the Provisional Measure (MP) No. 1,034/2021, effective as from July /2021, amending the Law No. 7,689/1988, in order to increase the Social Contribution on Net Income (CSLL) rate due by financial institutions. The impact for Banco BOCOM BBM was the increase of the CSLL rate from 20% to 25%, between 7/1/2021 and 12/31/2021, as from 1/1/2022, the rate will be of 20%, according to the amendment proposed by the MP No. 1,034/2021, article 3, item III of the Law No. 7,689/1988. BOCOM BBM CCVM had the CSLL rate increased from 15% to 20%, between 7/1/2021 and 12/31/2021, and as from 1/1/2022, the rate will be of 15%, according to amendments proposed by MP No. 1,034/2021, article 3, item I, of the Law No. 7,689/1988.

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

3. Significant Accounting Practices (Continued)

(g) Swaps, futures, forwards and options

The nominal amounts of contracts are recorded in offsetting accounts. Daily adjustments of transactions conducted in the future market are recorded as effective income or expense as they are incurred. Premiums paid or received upon the realization of operations in the options market are recorded in the respective equity accounts at cost, adjusted to market value as a counterparty to the result. The market value of swap and term operations are individually recorded in asset and liability equity accounts, as a counterparty to the respective income and expense accounts.

(h) Earnings per share

These are calculated based on the average number of outstanding shares at the period.

(i) Impairment of assets

In accordance with CPC 1, as approved by CMN Resolution No. 3,566/08 of May 29, 2008, and based on management analysis, if the carrying amount of the assets of the Bank and of others institutions of the Prudential Conglomerate exceeds their recoverable value, an impairment is recognized in the statement of operations.

(j) Contingent assets and liabilities and legal obligations

The recognition, measurement and disclosure of contingent assets and liabilities, and legal obligations are as follows:

Contingent assets - these are not recognized in the financial statements, except when there are evidences that offer guarantees of their realization, with no appeals.

Contingent liabilities - these are recognized in the financial statements when, based on the opinion of the legal advisors and of management, the loss of a lawsuit or administrative proceeding is evaluated as probable and whenever the amounts involved can be measured with sufficient reliability. The contingent liabilities classified as possible losses by legal advisors are not recorded and are just disclosed in the notes to the financial statements, and those classified as remote loss do not require any provision disclosure. Regarding the labor suits with loss probability classified as possible by the external lawyers, management will consider some assumptions such as: procedure stage, involved right, losses background, deal possibility. Accordingly, even if the suits are classified as possible, they may be provided for.

Legal obligations - tax and social security - these refer to lawsuits contesting the legality and constitutionality of some taxes and contributions. The discussed amount is quantified and accounted for.

(k) Short-term interbank investments

Interbank investments are stated at the acquisition, investment or release cost, plus foreign exchange, monetary and interest variations, as contractually defined. When the market value is lower, a provision for the adjustment of an asset to its realization value is made.

(l) Loan transactions

Credit operations are stated at the acquisition, investment or release cost, plus foreign exchange, monetary and interest variations, as contractually defined. When the market value is lower, a provision for the adjustment of an asset to its realization value is carried out. An allowance for doubtful accounts is set at an amount considered sufficient to cover any losses, and it considers, in addition to past experience, the assessment of debtors and their guarantors, as well as the specific characteristics of the transactions, in accordance with the requirements of Brazilian Central Bank Resolution No. 2,682. These are recorded at present value on a daily pro rata basis, based on the index variation and the agreed-upon interest rate, restated up to the 59th day in arrears at the financial companies, observing the estimated receipt date. After the 60th day, the recognition in the result occurs on the effective receipt of the installments. The renegotiated operations are maintained, at least, at the same level in which they were classified previously to the renegotiation and, if they have already been written-off against the provision, they are classified as level H; the gains are recognized as income upon the effective receipt.

Credit assignments without risk retention result in the write-off of the financial assets that are the object of the operation, which are then kept in an offsetting account. The result of the assignment is fully recognized when it is realized. In January 2012, as determined by CMN Resolutions No. 3,533/2008 and No. 3,895/2010, all credit assignments with risk retention are recognized in the remaining terms of operations, and the financial assets subject to assignment are recorded as credit operations and the amount received as obligations for sales or transfer of financial assets.

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

3. Significant Accounting Practices (Continued)

(m) Cash and cash equivalents

These represent cash and cash equivalents, unlinked balances with the Central Bank of Brazil and financial assets of high liquidity with maturities within three months, subject to an immaterial risk of changes in their fair values, which are used by the Group to manage short-term commitments (see Note 4).

(n) Other values and assets

The operations classified as Other values and assets represent operations arising from the execution of loan guarantees, which are initially valued at the remaining balance of the debt, and which are valued at fair value based on valuation reports prepared by professional entities with recognized qualifications, using evaluation techniques, limited to the value of the debt.

(o) Hedge accounting

The Bank allocated derivative financial assets to hedge principal amounts raised and the corresponding interest due.

Derivative financial instruments used to mitigate risks arising from exposure to variations in the market values of financial assets and liabilities, and that are highly correlated regarding changes in its market value in relation to the market value of the item that is being protected, at the beginning and during the life of the contract and considered effective in reducing the risk associated to the exposure to be protected, are considered protection instruments (hedges) and classified based on their nature:

- (a) Market risk hedge: the financial instruments classified under this category, as well as their related financial assets and liabilities, which are the hedge objects, are recorded at fair value and have their gains/losses, whether realized or not, reflected in the result; and
- (b) Cash flow hedge: the financial instruments classified in this category are marked at fair value, being the effective installment of appreciation or depreciation recorded, net of tax effects, in a specific account on equity. The ineffective portion of the respective hedge is recognized directly in the result.

If the hedging instrument expires or is sold, cancelled or exercised, or when the hedging position does not fall under hedge accounting conditions, the hedging relationship ends.

The objectives of the risk management of this operation, as well as the strategy of protection against such risks during the operation, are duly documented, as well as it is documented the evaluation, both at the beginning of the protection operation and on an ongoing basis. The derivative financial instruments are highly effective in offsetting the variations of the fair value (mark-to-market) of the hedged item. A hedge is expected to be highly effective if the variation in the fair value or cash flow attributable to the risk being hedged during the hedge relation period nulls from 80% to 125% of the risk variation.

Derivative instruments used for hedging purposes, as well as the mark-to-market value of the hedged object are disclosed in Note 21.

(p) Deposits and funding in the open market

These are recognized at the amounts of the liabilities, and the charges payable, when applicable, are recorded on a daily pro rata basis.

(q) Intangible assets

These correspond to the acquired rights that aim at assets incorporated into the maintenance of the entity or exercised with this condition, in accordance with CMN Resolution No. 4,534, of November 24, 2016. It consists of (i) licenses and copyrights and use, and (ii) Software. Intangible assets with defined useful lives are amortized on a straight-line basis over the period of their useful lives in which the rights generate benefits.

(*) The activities classified as Others include all economic sectors that individually represent less than 1% of the total active loan portfolio at the base dates December 31, 2021 and December 31, 2020.

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

7. Loan Transactions, Sureties and Honored Guarantees (Continued)

Loan transactions are stated in the Prudential Conglomerate balance sheet as follows:

		Prudential Conglomerate	
		12/31/2021	12/31/2020
Current Assets			
Loan Transactions		2,835,106	2,183,045
Private Sector		2,817,313	2,154,425
Public Sector		17,793	28,620
Other Receivables		19,682	13,864
Foreign Exchange Portfolio - Receivables (a)		10,017	5,287
Securities and Credits Receivable (b)		9,665	8,577
Noncurrent Assets			
Loan Transactions		4,423,790	4,326,334
Private Sector		4,405,263	4,276,654
Public Sector		18,527	49,680
Other Receivables		11,222	17,360
Securities and Credits Receivable (b)		11,222	17,360
Current Liabilities			
Other Liabilities		492,443	210,121
Foreign Exchange Portfolio - Advances on exchange contracts (a)		492,443	210,121
Subtotal		7,782,243	6,750,724
Co-obligations and risks in guarantees provided (c)		1,525,405	1,184,009
Total		9,307,648	7,934,733

- (a) The Advances on Exchange Contracts are classified as reduction accounts of Other Liabilities – Exchange Portfolio and as Other Receivables – Exchange Portfolio, respectively, as shown in Note 8.
- (b) This refers to credit assignment, recorded in “Other credits” account.
- (c) These refer to guarantees granted through sureties and guarantees. The granted guarantees are recorded in offsetting accounts and the respective earnings are classified as Results for Future Years and appropriated to the result according to the guarantees’ contractual terms. The Bank also includes guarantees provided for the credit operations of BBM Bank Limited, which are eliminated in the Prudential Conglomerate.

The provision for loan transactions was calculated according to the criteria established by the CMN Resolutions No. 2,682 and No. 2,697, based on the risk classification of the transactions and on their level of arrears.

The classification of the loan transactions in the Prudential Conglomerate is as follows:

	12/31/2021											12/31/2020	
	Overdue - days					Falling due - days							
Risk Level	Within 14	15 to 60	61 to 90	91 to 180	181 to 360	Within 90	From 91 to 180	From 181 to 360	Over 360 days	Total	Allowance	Total	Allowance
AA	-	-	-	-	-	1,154,255	620,504	592,786	1,873,535	4,241,080	-	4,143,787	-

Notes to the financial statements as at December 31, 2021
(In thousands of Reals, unless otherwise indicated)
7. Loan Transactions, Sureties and Honored Guarantees (Continued)

The allowance below is presented in the Prudential Conglomerate balance sheets as follows:

	12/31/2021	12/31/2020
Allowance for loan losses	48,691	37,741
Current Assets	24,284	16,540
Noncurrent Assets	24,407	21,201
Provision for Other Credits	4,646	1,268
Securities and Credits Receivable	4,646	607
Current Assets	2,891	-
Noncurrent Assets	1,755	607
Provision for Advances on Exchange Contracts	-	661
Current Assets	-	661
Provision for Co-obligations and Risks in Guarantees Provided	10,699	14,740
Current Liability	9,966	13,671
Noncurrent Assets	733	1,069
Total	64,036	53,749

Changes in allowances are as follows:

	12/31/2021	12/31/2020
Balance at January 1st	53,749	47,513
Increase / (reversal)	14,891	26,925
Write-offs to loss	(4,604)	(20,689)
Total	64,036	53,749

In the year ended December 31, 2021, there were no loan transactions renegotiated in the Prudential Conglomerate (December 31, 2020 - R\$ 34,825 thousand)

In the year ended December 31, 2021, there was a recovery of losses on loan transactions in the amount of R\$ 5,482 thousand (December 31, 2020 - R\$ 5,815 thousand).

The credit risk concentration in the Prudential Conglomerate statements is as follows:

	12/31/2021	%	12/31/2020	%
Top debtor	262,002	2.8%	271,563	3.4%
Top 10 debtors	1,443,077	15.5%	1,385,395	17.5%
Top 20 debtors	2,337,617	25.1%	2,113,933	26.6%
Top 50 debtors	4,076,071	43.8%	3,591,012	45.3%
Top 100 debtors	5,909,530	63.5%	5,120,335	64.5%

The breakdown of the Prudential Conglomerate credit portfolio by type is as follows:

	12/31/2021	12/31/2020
Working Capital	5,660,819	5,433,410
Co-obligations and Risk in Guarantees Provided	1,525,405	1,184,009
Export Credit Notes	1,257,842	710,066
Trade Finance	786,416	551,635
Others	77,166	55,613
Total	9,307,648	7,934,733

Notes to the financial statements as at December 31, 2021
(In thousands of Reals, unless otherwise indicated)
8. Foreign Exchange Portfolio

	Prudential Conglomerate

10. Repurchase Agreements

The obligations from repurchase agreements in the Prudential Conglomerate are as follows:

	Prudential Conglomerate	
	12/31/2021	12/31/2020
Own Portfolio		
National treasury notes	623,389	-
Debentures	362,990	281,578
National Treasury Bills	270,445	-
Financial treasury bills	259,247	9,630
Eurobonds	215,529	-
	1,731,600	291,208
Current liabilities	1,719,830	276,496
Noncurrent liabilities	11,770	14,712
Total	1,731,600	291,208

The main variation was the increase in the position of prefixed National treasury notes, which the acquisition happened in December 30, 2021, maturing on January 3, 2022 and they were settled on the same date.

11. Funds from Acceptance and Issuance of Securities

On December 31, 2021 and December 31, 2020, fundraising through Agribusiness Credit Bills (LCA), Housing Credit Bills (LCI), Financial Bills (LF), Guaranteed Financial Bills (LFG) and Financial Bills – Subordinated Debt were segregated by maturity range as follows:

	Prudential Conglomerate									
	LCA (a)		LCI (b)		LF (c)		LFG (d)		LF - Subordinated debt (e)	
Maturity	06/30/2021	12/31/2020	06/30/2021	12/31/2020	06/30/2021	12/31/2020	06/30/2021	12/31/2020	06/30/2021	12/31/2020
Within 1 month	118,883	107,225	-	2,647	122,915	26,045	-	-	-	-
From 1 to 3 months	55,157	155,825	-	6,298	135,857	18,886	-	-	5,996	-
From 3 to 6 months	124,543	229,523	598	7,720	42,297	101,896	-	92,045	-	-
From 6 to 12 months	803,660	236,073	16,660	40,318	486,249	355,894	-	749,427	-	-
More than 12 months	985,267	722,183	30,652	10,459	645,674	954,028	-	-	200,000	201,760
	-	-	-	-	-	-	-	-	-	-
Total	2,087,510	1,450,829	47,910	67,442	1,432,992	1,456,749	-	841,472	205,996	201,760

- (a) Agribusiness Credit Bills (LCA) are issued by the Bank and registered with B3, according to Laws No. 11,076/2004 and No. 11,311/2006 and subsequent amendments. The range between rates used for this operation are 85% of DI – 123% of DI and 100% of pre-set.
- (b) Housing Credit Bills (LCI) are nominative securities created by Provisional Measure No. 2,223 on September 4, 2001, which resulted in Law No. 10,931 of August 2, 2004. The range between rates used for this operation are 92% of DI – 120.7% of DI.
- (c) Financial Bills (LF) are issued by the Bank and registered with B3 - according to the Law No. 12,249/10 (Section II, articles 37 to 43), and ruled by CMN (Law No. 3,836). The range between rates used for this operation are 100% of DI – 129% DI, 100% of pre-set and 100% of IPCA.
- (d) Financial Letter with Guarantee (LFG) is regulated by Resolution No. 4,795 through which the Central Bank of Brazil is authorized to carry out loan operations under specific conditions through direct acquisition, in the primary market, of Financial Bills with financial assets or securities as guarantees. The rates used for this operation are 100% of SELIC.
- (e) Financial Bill (LF) - Subordinated Debt has a perpetual term and a repurchase option starting within 5 semiannual windows. The Bank uses the amount raised as complementary capital in order to make up the institution's Level I capital. The issue was private and carried out with the Bank's shareholder base. The rates used for this operation are 110% of SELIC.

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

12. Borrowings

a) Borrowings abroad

Borrowings abroad in the Prudential Conglomerate are as follows:

	Prudential Conglomerate	
	12/31/2020	12/31/2020
Obligations with borrowings abroad (*)	4,568,886	3,300,574
Export credit facility	66,422	146,673
Import credit facility	28,121	15,569
	4,663,429	3,462,816
Current liabilities	3,448,121	2,313,174
Long-term payables	1,215,308	1,149,642
	4,663,429	3,462,816

(*) The amount of R\$ 4,568,886 thousand on December 31, 2021 (December 31, 2020 – R\$ 3,300,574 thousand), classified as Borrowings Abroad, refers:

1 - To the fundraising in U.S. dollars with Bank of Communications with final maturity up to September 2022 representing R\$ 618,214 and March 2023 representing the amount of R\$ 378,233. The range between rates used for this operation is 0.90% – 1.01%;

2 - Money market operations in dollars and renminbi, taken with the Bank of Communications GMC, with maturities of less than 365 days representing R\$ 1,467,350 and maturities up to January 2026 representing R\$ 558,050, with the Bank of Communications Macau, with maturities of less than 365 days representing R\$ 35,480, with the Bank of Communications New York, with maturities of less than 365 days representing R\$ 558,458 and with the Bank of Communications Hong Kong, with maturities of less than 365 days representing R\$ 750 and maturities up to September 2023 representing R\$ 279,025. The range between rates used for this operation is 0.30% – 3.00%; and;

3 - Working capital operations with maturities of less than 365 days representing R\$ 673,326. The range between rates used for this operation is 0.88% – 1.10%.

Total	24,936	16,314	(811)	(8,017)	32,422

16. Equity
(a) Capital - Banco BOCOM BBM S.A.

The capital comprises 282,201,085 registered shares with a par value of R\$ 1.60 each, divided into 188,626,652 common shares and 93,574,433 preferred shares. Each common share is entitled to 1 (one) vote in resolutions of the General Meeting. Preferred shares have no voting rights.

(b) Legal reserve

This reserve is calculated at the rate of 5% of the net income at each balance sheet date, up to the limit of 20% of capital, as determined by the Corporation Law.

(c) Statutory reserve

In accordance with the articles of incorporation, this reserve represents the remaining balance of net income at each balance sheet date, after the legal allocations.

Notes to the financial statements as at December 31, 2021

(In thousands of Reais, unless otherwise indicated)

(d) Treasury shares

On December 31, 2021, the Bank BOCOM BBM has 76,296,769 shares to be held in treasury in the amount of R\$ 181,839 thousand.

(e) Interest on Equity

According to article 9 of Law No. 9.249/95 and its subsequent amendments, Banco BOCOM BBM S.A., at the end of 2021, declared interest on equity of R\$ 35,375 thousand (2020 - R\$ 31,792 thousand), with withholding income tax of R\$ 5,306 thousand (2020 - R\$ 4,769 thousand), calculated at a 15% rate. The amount of interest on equity was determined based on the legal limits in force and classified in the group's official records as "Other Operating Expenses".

For the purposes of the publication of the statement of operations, as established by CMN Resolution No. 4,706, BOCOM BBM S.A., recognized as other obligations, as a counterpart for the appropriate equity account, the declared capital remuneration was set by the obligation at balance sheet date.

Interest on equity proposed at the end of 2021 reduced tax burden by R\$ 17,688 thousand (2020 - R\$ 14,306 thousand).

In the year ended December 31, 2021, R\$ 27,023 thousand was paid as interest on equity.

(f) Dividends

	Prudential Conglomerate	
	12/31/2021	12/31/2020
Net income - Banco BBM S.A.	147,399	116,572

b) Key Management Compensation

The total compensation will be calculated as follows:

I) Fixed and variable compensation

The total compensation of the Participants will comprise a fixed and a variable part. The variable compensation of the Participants will be paid as follows:

- The amount equivalent to at most 50% (fifty percent) of the variable compensation will be paid in cash, immediately available for the Participant ("Short-term compensation"); and
- The amount equivalent to at least 50% (fifty percent) of the variable compensation will be deferred for payment within 3 (three) years, considering the provisions below ("Deferred Compensation" together with "Short-term Compensation" and "Variable Compensation").

Notes to the financial statements as at December 31, 2021

(In thousands of Reais, unless otherwise indicated)

20. Related-parties' Significant Transactions (Continued)

The minimum and maximum amounts of the Variable Compensation of the Participants will be fixed by the Administrative Council of Banco Bocom BBM.

II) Deferred compensation

The payment of the deferred compensation will be carried out on a scaled basis, every six months, in shares proportional to the deferral period ("Deferred Compensation Shares"), and all the deferred shares should be updated by the ROE of Banco Bocom BBM. In the year ended December 31, 2021, the payment of Deferred Remuneration occurred through repurchase agreements backed by public securities.

ROE is the profit before tax for the period divided by the Equity at the beginning of the period.

	Prudential Conglomerate	
	12/31/2021	12/31/2020
Liabilities		
Statutory	18,035	15,254

21. Derivative Financial Instruments

The Bank and the other institutions of the Prudential Conglomerate participate in transactions involving derivative financial instruments to meet their own needs as well as on behalf of their clients.

Derivative financial instruments are classified according to management's intent at the inception of the transaction, taking into consideration whether or not the purpose is to hedge risks.

In accordance with BACEN Circular Letter No. 3,082, the derivative financial instruments assigned to offset, in whole or in part, exposure to risks from assets, liabilities, commitments or projected future transactions (hedged items), provided that they are considered effective in reducing the risk associated with the exposure to be hedged, are classified according to their nature.

These transactions are traded, recorded or held on B3. In the Prudential Conglomerate, international derivative transactions are traded and recorded in the OTC market, at the Chicago Board of Trade (CBOT) or Chicago Mercantile Exchange (CME).

The criteria used to calculate the market values of the derivative financial instruments are:

- Futures: value of daily adjustments to the transactions;
- Swap and term transactions: Cash flow is estimated for each part, discounted to present value according to the corresponding interest rate curves, obtained based on B3 prices or on the assets' prices;
- Options: average trading price on the calculation date or, when not available, estimated price based on pricing models, such as Black & Scholes.

At December 31, 2021, the guarantees for the transactions involving derivative financial instruments are represented mainly by government securities in the total amount of R\$ 578,159 thousand (December 31, 2020 - R\$ 460,987 thousand) and fund quotas in the total amount of R\$ 27,582 thousand (December 31, 2020 - R\$ 26,723 thousand).

Notes to the financial statements as at December 31, 2021
(In thousands of Reais, unless otherwise indicated)

Notes to the financial statements as at December 31, 2021
(In thousands of Reals, unless otherwise indicated)
21. Derivative Financial Instruments (Continued)

The futures market includes the following positions maturing on the first business day of the subsequent month:

- Purchased foreign exchange coupon contracts (DDI) of R\$ 4,305,243 thousand (December 31, 2020 – R\$ 2,597,208 thousand);
- Sold foreign exchange coupon contracts (DDI) of R\$ 436,778 thousand (December 31, 2020 – R\$ 341,744 thousand);
- Purchased interest contracts (DI1) of R\$ 858,032 thousand; (December 31, 2020 – R\$ 466,131 thousand);
- Sold interest contracts (DI1) of R\$ 488,852 thousand; (December 31, 2020 – R\$ 1,010,341 thousand);
- Purchased currency contracts (DOL) of R\$ 365,725 thousand; (December 31, 2020 – R\$ 392,716 thousand);
- Sold currency contracts (DOL) of R\$ 1,725,701 thousand (December 31, 2020 – R\$ 782,117 thousand);
- Purchased currency contracts (DAP) of R\$ 64,178 thousand; (December 31, 2020 – R\$ 43,404 thousand);
- Sold currency contracts (DAP) of R\$ 184,713 thousand (December 31, 2020 – R\$ 131,633 thousand).

Net gains (losses) on derivative financial instruments are as follows:

	Prudential Conglomerate		
	Second half of 2021	12/31/2021	12/31/2020
Future contracts	302,766	97,708	496,910
Options contracts	3,173	19,555	12,473
Swap and term contracts	(61,891)	24,654	(344,725)
Total	244,048	141,917	164,658

The main factor of the variation in the result of derivatives is due to the devaluation of Brazilian real against U.S. dollar, taking into account that most of our derivatives are used as hedging instruments.

d) Hedge accounting
Fundraising fair value hedge (I)

During the 3rd quarter of 2017 and the 1st quarter of 2020, Banco BOCOM BBM entered into loan agreements in U.S. dollars with Bank of Communications Shanghai Branch with the objective of providing funding. They are as follows:

- On September 6, 2017 in the amount of USD 35,000 thousand with payment of pre-fixed interest of 0.90% p.a..
- On September 18, 2017 in the amount of USD 30,000 thousand with payment of fixed interest of 0.90% p.a..
- On September 11, 2017 in the amount of USD 35,000 thousand with payment of fixed interest of 0.90% p.a..
- On March 25, 2020 in the amount of USD 67,500 thousand with payment of fixed interest of 1.01% p.a..
- On December 11, 2021 in the amount of USD 10,000 thousand with payment of fixed interest of 0.75% p.a..

In order to index these flows to the CDI, a series of exchange coupon operations were carried out at B3, in accordance with the maturities and exposures of the available FRC contracts and the maturity of the operations. Disbursements were made in U.S. dollars and, upon cash receipt, a market risk hedge was contracted, designating a portfolio of derivative financial instruments, comprising DDI, DOL and ED contracts for total hedge, considering the foreign exchange exposure and interest rate risks. In order to equalize the mark-to-market effects of derivative financial instruments designated as hedge, the amount of the hedge principal, plus interest due, is stated at fair value and also marked to market.

Notes to the financial statements as at December 31, 2021
(In thousands of Reais, unless otherwise indicated)
21. Derivative Financial Instruments (Continued)

Due to the fact that there is a matching of hedge object flows and the results of hedge derivatives, the effectiveness of the operation remains close to 100.57%.

Hedge object	Prudential Conglomerate			
	12/31/2021		12/31/2020	
	Result of the object	Result of the hedge instrument	Effectiveness	Effectiveness
Fundraising (I)	(242,387)	243,773	100.57%	90.34%

Fundraising fair value hedge (II)

In June 2017, Banco BOCOM BBM designated a portfolio of derivative financial instruments constituted by DI1 and DAP contracts, with the objective of indexing to the CDI part of its funding portfolio indexed to the IPCA. In order to equalize the effects of mark-to-market derivative financial instruments designated as hedge, the value of the funding portfolio indexed to the IPCA is stated at fair value and also marked to market.

In December 2018, Banco BOCOM BBM designated a portfolio of derivative financial instruments constituted by DI1 and DAP contracts, with the objective of indexing to the CDI part of its pre-fixed funding portfolio. In order to equalize the effects of mark-to-market derivative financial instruments designated as hedge, the value of the pre-fixed funding portfolio is stated at fair value and also marked to market.

Due to the fact that there is a matching of hedge object flows and the results of hedge derivatives, the effectiveness of the operation remains 98.69% to LF IPCA and 99.44% to LF PRÉ.

Hedge object	Prudential Conglomerate			
	12/31/2021		12/31/2020	
	Result of the object	Result of the hedge instrument	Effectiveness	Effectiveness
Fundraising (II) - LF IPCA	(367)	363	98.69%	102.37%
Fundraising (II) - LF PRÉ	8,772	(8,723)	99.44%	99.97%

Credit operations fair value hedge

In August 2017, Banco BOCOM BBM designated a portfolio of derivative financial instruments comprising Euro Dollar Futures contracts (ED), in order to hedge the U.S. Dollar short-term interest rate variations. In order to equalize the effects of the mark to market of the derivative financial instruments assigned as hedge, the amount of USD 29,761 thousand of the credit operation released in August 2017 by Banco BOCOM BBM SA Nassau Branch, with a fixed interest rate of 4.28 % p.a., is stated at fair value and also marked to market.

Due to the fact that there is a matching of hedge object flows and the results of hedge derivatives, the effectiveness of the operation remains close to 98.90%.

Hedge object	Prudential Conglomerate			
	12/31/2021		12/31/2020	
	Result of the object	Result of the hedge instrument	Effectiveness	Effectiveness
Credit Operations	(172)	170	98.90%	95.66%

Notes to the financial statements as at December 31, 2021
(In thousands of Reals, unless otherwise indicated)
21. Derivative Financial Instruments (Continued)
Investment cash flow hedge abroad

In September 2016, CMN edited the Resolution No. 4,524, establishing the criteria to record the transactions with financial instruments contracted in order to mitigate the risks associated to the foreign exchange exposure of the investments abroad.

In January 2017, Banco BOCOM BBM assigned a derivative financial instruments portfolio constituted by DI1 and DOL contracts, with the purpose of hedging the foreign exchange rate risk of its investment abroad in the amount of USD 5,000,000, which is consolidated in the Prudential Conglomerate.

Due to the fact that there is a matching of hedge object flows and the results of hedge derivatives, the effectiveness of the transaction remained close to 100.00%.

Hedge object	Prudential Conglomerate			
	12/31/2021		12/31/2020	
	Result of the object	Result of the hedge instrument	Effectiveness	Effectiveness
Investment Abroad	8,371	(8,371)	100.00%	101.34%

Bonds held to maturity fair value hedge

In June 2020, Banco BOCOM BBM designated a portfolio of derivative financial instruments consisting of Libor flat swap contracts vs. fixed rate in USD, in order to cover the risk of fluctuations in the external profitability of bonds classified as "held to maturity" as spread over Libor due to fluctuations in the forward structure of the Libor curve. Because of the matching between the flows of the hedge object and the results of the derivatives intended for hedge, the effectiveness of the operation was of 103.78%.

Hedge object	Prudential Conglomerate			
	12/31/2021		12/31/2020	
	Result of the object	Result of the hedge instrument	Effectiveness	Effectiveness
Bonds Held to Maturity Abroad	426	(442)	103.78%	100.77%

Bonds available for sale cash flow hedge

In January 2021, Banco BOCOM BBM designated a portfolio of derivative financial instruments consisting of Libor flat swap contracts vs. fixed rate in USD and in December 2021 SOFR flat swap contracts vs. fixed rate in USD, in order to cover the risk of fluctuations in the external profitability of bonds classified as "available for sale" as spread over Libor due to fluctuations in the forward structure of the Libor and SOFR curve. Because of the matching between the flows of the hedge object and the results of the derivatives intended for hedge, the effectiveness of the operation was of LIBOR 99.24% and SOFR 88.04%.

Hedge object	Prudential Conglomerate			
	12/31/2021		12/31/2020	
	Result of the object	Result of the hedge instrument	Effectiveness	Effectiveness
Bonds Available for Sale Abroad - LIBOR	(965)	958	99.24%	-
Bonds Available for Sale Abroad - SOFR	12	(11)	88.04%	-

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

22. Risks Management

Market risk

Banco BOCOM BBM was a pioneer in terms of quantifying market risk in Brazil, and developed a proprietary system in 1997 which became a benchmark for the industry. The market risk management structure includes the following: a) the Executive Board, responsible for reviewing risk management policies and proposing risk management operating limits, submitting these for the approval of the Board of Directors at least once a year; b) the Board of Directors, which approves the risk policies and limits at least once a year; c) the Market Risk area, subordinated to the Risk Officer, is responsible for identifying, measuring, monitoring and reporting online to the Executive Board the Bank's market risk, ensuring compliance with the market risk management policy, as well as guaranteeing that the operational limits are observed; d) the Price department, which, among other duties, is responsible for defining the price models and sources used in mark-to-market adjustments of traded products, regardless the management departments; e) Internal Audit, which is responsible for ensuring the adequacy of procedures and the consistency between market risk management policies and the structure actually implemented.

The market risk is monitored through daily calculations of the Value at Risk (VaR), a statistical tool that measures the institution's maximum potential loss at a given confidence level over a given investment horizon. A VaR limit is established, which may be allocated by the Chief Treasury Officer among the various risk factors. The VaR calculation model is submitted to periodical back testing. Furthermore, scenarios are analyzed daily, and these scenarios are quarterly defined by the Risk Committee, independently of the management departments. A full description of the Bank's market risk management structure is available on Banco BOCOM BBM's website (www.bancobocombbm.com.br).

Market Risk means the risk arising from fluctuations in the values of assets and derivatives resulting from changes in market prices and rates, such as interest, stocks, currencies and commodities. Market Risk control is based on the calculation of VaR - Value at Risk, a statistical tool that measures the maximum potential loss of BOCOM BBM for a given confidence level and investment horizon. BOCOM BBM's daily VaR limit calculated with 95% confidence is 2% of Equity. The model used to calculate the VaR limit is the parametric one. The variance-covariance matrix is reestimated daily using GARCH models. This model captures the presence of volatility groupings and, according to the daily estimated parameters, gives more weight to the most recent past. It should be noted that other VaR models are available, such as Monte Carlo Simulation and Historical Simulation. The effectiveness of the risk model is tested annually through back-testing, which consists in comparing the VaR estimates with the actual daily results.

*VaR = Maximum potential risk, given the level of reliability and the investment scenario. For Banco BBM, the limit is established based on a 95% likelihood of loss at a maximum of 2% of equity in 1 day.

Reference Date	VaR (in R\$ Millions)
12/31/2021	3.7
06/30/2021	3.6
12/31/2020	6.1
06/30/2020	4.0

In addition to VaR, stress tests are calculated based on the stress scenarios provided by B3. Based on the envelope scenarios for each risk factor, one optimistic and one pessimistic scenario are defined, considering a holding period of 3 business days. For risk factors in which there is no shock defined by the B3 scenarios, shocks from related risk factors are used. Thus, based on the exposure of the Bank's portfolio to each of the risk factors, the consolidated financial loss of the portfolio under stress is calculated for each of the two scenarios. Finally, the scenario with the greatest financial loss is used as a reference.

Reference Date	B3 Stress (in R\$ Millions)
12/31/2021	-111.5
06/30/2021	-57.5
12/31/2020	-20.2

Notes to the financial statements as at December 31, 2021

(In thousands of Reals, unless otherwise indicated)

22. Risks Management (Continued)

Liquidity risk

Banco BOCOM BBM's liquidity target is to ensure that at any given time the Bank has sufficient cash to meet all its liabilities and other commitments. It is the responsibility of the Liquidity Risk area to monitor whether there is a sufficient free cash position to guarantee the continuity of the bank's operations in a severe stress scenario, following the limits and guidelines defined by the Risk Committee and approved by the Board of Directors.

Liquidity risk is managed based on cash flow forecasts, considering different scenarios for funding, loan and treasury operations. These cash flow analyses take into consideration: (a) the implicit risk of each client, (b) possible additional cash for compulsory deposits, (c) derivative adjustments; and (d) other existing obligations. The general principle is to ensure that the Bank's commitments are aligned with its equity and the current policies for fundraising, credit and treasury.

Banco BOCOM BBM has a liquidity risk management structure comprising the following agents, with their respective assignments: a) Liquidity Risk area, subordinated to the Risk Director, which is responsible for centralizing and measuring the information referring to liquidity risk management, ensuring that operational limits are observed and disclosing reports to support decision making on liquidity risk; b) Internal Audit, which is responsible for ensuring the adequacy of the procedures and the consistency between the liquidity risk management policies and the effectively implemented structure. A full description of the Bank's liquidity risk management structure is available on the website of Banco BOCOM BBM (www.bocombbm.com.br).

	Prudential Conglomerate	
	12/31/2021	12/31/2020
Current assets	6.228.325	5.162.336
Current liabilities	(9.318.497)	(6.919.320)
Working capital, net	(3.090.172)	(1.756.984)
Securities available for sale presented in long-term receivables	1.738.655	1.354.338
Loans abroad	2.121.045	1.574.162
	769.527	1.171.516

Banco BOCOM BBM's current liabilities are higher than its current assets calculated according to the nominal maturity of its operations. However, part of the current liabilities are loans made to the parent company in the total amount of R\$ 2,121,045 thousands which, despite having a maturity of less than 1 year, are systematically renewed.

Credit risk

Banco BOCOM BBM has a credit risk management structure comprising the following elements and respective duties: a) the Credit Committee, which is responsible for defining the economic groups' credit limits, and monitoring and evaluating the consolidated portfolio position, its concentration and risk level. It is also responsible for establishing the terms for solving default on credit operations or with a certain level of deterioration of the guarantees and deciding whether or not to initiate judicial collection proceedings, as applicable; b) Board of Directors, responsible for approving the risk policies and limits, at least once a year; c) Credit Risk area, subordinated to the Risk Director, is responsible for centralizing and evaluating information related to the individual and consolidated credit risk management, per operation, ensuring that operating limits are complied with, disclosing reports that make it easy to make a decision related to credit limits approved by the Credit Committee. It is also the responsibility of the risk area to previously evaluate new operational genres related to credit risk; d) Credit Analysis area, responsible for assessing the credit risk of economic groups with which the Bank maintains or intends to maintain credit relationships; e) Internal Audit, which carries out periodic audits of the business units and of the Credit processes of the Group; f) Legal Department, responsible for analyzing the contracts entered into by Banco BOCOM BBM and its clients, as well as coordinating measures to recover credits or protect the Bank's rights; and g) Contracts Department, responsible for checking the adherence of operations to the parameters established in the Credit Limit Proposal ("PLC"), as well as providing the adequate guarantees. It is also responsible for issuing contracts to be entered into by Banco BOCOM BBM and the client. A full description of the credit risk management structure is available on the website of Banco BOCOM BBM (www.bocombbm.com.br).

Notes to the financial statements as at December 31, 2021

(In thousands of Reais, unless otherwise indicated)

22. Risks Management

Operational risk

Aligned to the orientation of the Regulation Bodies and to the best market practices, Banco BOCOM BBM ("BOCOM BBM") established the "Operating Risk Management Policy", which defined principles, procedures and responsibilities to be observed in order that the internal controls systems of BOCOM BBM work and are strengthened, seeking to mitigate the risks according to the complexity of its businesses, as well as to disseminate the culture of the controls to ensure the compliance with laws, regulations and other internal standards.

The Internal Controls and Operating Risk area is a segregated independent organizational area of Internal Audit, under the responsibility of the Risk and Internal Controls Officer. The area is responsible for performing, together with the other components of the risk management structure, in order to comply with the guidelines established by the mentioned Policy.

The complete description of the operating risk management structure is available for the public in the website of Banco BOCOM BBM na Internet (www.BOCOMbbm.com.br).

Capital management

Banco BOCOM BBM manages its capital through a structure comprising the following bodies: Board of Directors, Executive Board, Internal Control, Capital and Risk Board, Treasury Board, Fund Raising Board, Back Office, Business Units and Audit Board. The Board of Directors is the highest body within this structure, in charge of monitoring the capital adequacy. The Executive Board must review the documents to be submitted to the Board of Directors, as well as approving the methodologies to be used for the management and monitoring of the capital adequacy. Capital management and centralization is a responsibility of the Capital and Risk Board, which must continuously work to improve and oversee the institution's compliance with the capital management policy and its capital plan. The Treasury and Fundraising Boards are responsible for planning the issuance of equity instrument, if necessary. The capital management department periodically generates reports on the capital adequacy, which are sent to the Executive Board and the Board of Directors.

These reports comprise simulations of severe events and extreme market conditions. The Business Units must provide all information that the Internal Control, Capital and Risk Board deems necessary for effective capital management. The Audit department is responsible for evaluating, from time to time, the effectiveness of the capital management process. The description of the capital management structure is available on the website of Banco BOCOM BBM (www.bocombbm.com.br).

23. Operating Limits

In October 2013, the new rules related to capital measurement became effective. The financial institutions and similar entities have to maintain minimum equity of 8.0% of their assets, weighted by grades of risk to expositions in gold, foreign exchange and operations subject to the operating risk and to the variations in: foreign exchange, interest rate, price of commodities and price of shares classified as held in portfolio for trade, according to BACEN's rules and instructions. The Prudential Conglomerate of Banco BOCOM BBM is within this operational limit on December 31, 2021.

	Prudential Conglomerate

(*) The amount of provision for deferred taxes is recorded as Other tax and social security obligations.

Notes to the financial statements as at December 31, 2021
(In thousands of Reals, unless otherwise indicated)
24. Income Tax and Social Contribution (Continued)

Attending the BCB Resolution No. 15/2020, in its 13th article, the constitutions and realizations in asset credit taxes and provision for deferred taxes were highlighted, just like their nature and origins, as it is being shown at the table below:

	Prudential Conglomerate			
	12/31/2021	Constitution	Reversal	12/31/2020
Asset credit tax:				
Temporary differences (a)				
- Provision for loan transactions	30,738	5,914	8,673	33,497
- Market value adjustment - marketable securities and deriv	66,680	91,605	74,532	49,607
- Provisions for Contingencies (Note 25)	5,596	207	545	5,934
- Others	13,797	25,007	24,100	12,890
Social Contribution Negative Basis	411	25	1,953	2,339
Tax loss	493	3	2,575	3,065
Total	117,715	122,761	112,378	107,332
Provision for deferred taxes				
Temporary differences (a)				
- Market adjustment of securities and derivatives	88,834	101,279	131,215	58,898
- Adjustment of Selic Interest rate on Judicial Deposits				
- Others	37	-	-	37
Total	88,871	101,279	131,215	58,935

(a) It is expected that these tax credits will be realized up to the end of 2025 for income tax and social contribution, with a present value of R\$ 20 million respectively. The Social Contribution on tax credits was calculated considering a new rate in force of 20%, after publication of the Proposed Amendment to Constitution No. 6/2019, for additions or exclusions from March 1, 2020.

The present value of the tax credits, considering the realization expectation for the deferred tax assets and liabilities, is as follows:

Description	Prudential Conglomerate	
	Tax credits on temporary differences	Loss and negative basis

a) The president Jair Bolsonaro approved the Law No. 14,183, of 2021, arising from the Provisional Measure (MP) No. 1,034/2021, effective as from July /2021, amending the Law No. 7,689/1988, in order to increase the Social Contribution on Net Income (CSLL) rate due by financial institutions. The impact for Banco BOCOM BBM was the increase of the CSLL rate from 20% to 25%, between 7/1/2021 and 12/31/2021, as from 1/1/2022, the rate will be of 20%, according to the amendment proposed by the MP No. 1,034/2021, article 3, item III of the Law No. 7,689/1988. BOCOM BBM CCVM had the CSLL rate increased from 15% to 20%, between 7/1/2021 and 12/31/2021, and as from 1/1/2022, the rate will be of 15%, according to amendments proposed by MP No. 1,034/2021, article 3, item I, of the Law No. 7,689/1988.

Notes to the financial statements as at December 31, 2021

25. Provisions and Liabilities for Legal Obligation

The Bank and the Prudential Conglomerate are a party to lawsuits and administrative proceedings arising from the normal course of operations, involving tax, labor and civil matters among others.

a) Breakdown of provisions

Based on information from its legal counsels and on an analysis of the pending legal and civil proceedings and labor suits, considering previous experience related to the claimed amounts, management recorded a provision in an amount considered sufficient to cover the estimated losses expected in connection with ongoing litigation, as follows:

	Prudential Conglomerate	
	12/31/2021	12/31/2020
Labor	11,787	12,154
Civil	-	633
Total - Provisions for contingencies	11,787	12,787

These provisions are recorded as "Other liabilities - sundry" under Long-term liabilities. During the year ended December 31, 2021, R\$ 283 thousand was provided for contingencies in the Prudential Conglomerate.

b) Liabilities for legal obligations

Based on the preliminary injunction obtained, Banco BOCOM BBM and BOCOM BBM Corretora de Câmbio e Valores Mobiliários SA ensured the suspension of the requirement for PIS/Pasep and COFINS tax credits that are determined, with the incidence of Service Tax (ISS) in their calculation bases, as well as their respective bookkeeping for timely and future compensation, if applicable, with the respective ISS deductibility from the calculation bases of the mentioned contributions. Based on that preliminary injunction, Banco BOCOM BBM and BOCOM BBM Corretora de Valores Mobiliários SA started to collect, in November 2018, PIS/Pasep and COFINS disregarding the municipal tax in their respective calculation bases, having constituted a liability for the remaining balance up to December 2021, recorded as "Other Sundry Liabilities" in Long-Term Liabilities, as follows:

	Prudential Conglomerate	
	12/31/2021	12/31/2020
PIS and COFINS	675	414
Total - Liabilities for legal obligations	675	414

c) Others

On December 5, 2016, the Brazilian Administrative Council for Economic Defense (CADE) filed an administrative proceeding against Banco BOCOM BBM S.A. investigating alleged anticompetitive practices in relation to the onshore foreign exchange market between 2008 and 2012. The Bank, together with its legal advisors, has already presented its administrative defense, still pending judgment.

In November 2019, Banco BOCOM BBM SA received assessments from the Federal Revenue of Brazil with the purpose of: (i) Social security contributions allegedly due on PLR (Profit Sharing or Results) in the amount of R\$ 5.6 million and (ii) social security contributions allegedly due on food in the amount of R\$ 1.2 million, both correspond to payments made in 2015. The Bank discusses the assessments at the administrative level. In the opinion of our legal advisors, the chances of loss in these cases are possible.

Notes to the financial statements as at December 31, 2021
(In thousands of Reals, unless otherwise indicated)
26. Allowance for Financial Guarantees

The allowance for doubtful accounts related to financial guarantees is based on the analysis of operations according to the type of obligation provided, past experience, future expectations and management's risk assessment policy. They are reviewed periodically, as established by CMN Resolution No. 4,512/2016.

	Prudential Conglomerate	
	12/31/2021	12/31/2020
Guarantee		
Surety or guarantee in lawsuits and administrative proceedings	369,085	364,728
Linked to bids, auctions, service render or construction	267,340	307,213
Other sureties	189,931	231,015
Linked to international trade	28,829	9,205
Total	855,185	912,161
Changes in allowance for financial guarantees		
Opening balance	14,740	1,088
Exchange variation	-	117
Constitution / (Reversal)	(4,041)	13,535
Closing balance	10,699	14,740

27. Other Information
(a) Compensatory and settlement of obligations arrangement

Banco BOCOM BBM has a compensatory and settlement of obligations arrangement within the scope of the National Financial System, according to CMN Resolution No. 3,263/05, resulting in more guarantee to settle its debits with financial institutions with which it has this kind of arrangement. On December 31, 2021, the total assets mitigated by compensatory arrangement was of R\$ 1,928,401 thousand (December 31, 2020 - R\$ 203,053 thousand).

(b) Deferred income

Result for future years refers mainly to the earnings of guarantees granted, and its decrease in the period ended December 31, 2021 is aligned with the variation of the guarantees.

(c) Marketable securities portfolio

At the end of the year, based on Resolution 3,181 of the Central Bank of Brazil, considering the trend of positive effect on the nominal rates and liquidity of the Eurobonds offered by the national treasury and that for the budget and business plan of the coming years, it is important to have predictability and avoid revenue reductions, the Bank's Executive Committee unanimously approved to continue the process of stretching the portfolio of nominal securities held to maturity selling R\$ 162,184 thousand in bonds maturing in 2025 and 2027 and buying R\$ 163,967 thousand maturing in 2030 and 2031, which generated an effect on the result of R\$ 5,068 thousand.

At the end of the year, Banco BOCOM BBM had R\$ 1,225,378 thousand in marketable securities classified as "held to maturity", according to Circular Letter No. 3.068 /01 of Central Bank of Brazil. Banco BOCOM BBM has financial capacity and intention to hold them to maturity.

(d) Energy trading

In order to diversify the business lines that have synergy with the group's performance in the corporate credit segment and to increase the range of services available to meet the specific needs of customers, Banco BOCOM BBM plans to operate in the energy trading market, purchasing and selling electric power. The process of obtaining the necessary regulatory authorizations was concluded. The activities are expected to begin during 2022.

27. Other Information (Continued)

(e) Impacts of Covid-19

The year of 2021 was marked by the strong recovery of the global economy, as several social isolation measures could be relaxed as vaccination advanced in the main developed economies. Most countries in the Northern Hemisphere ended the year with more than 75% of their population immunized with two doses of the vaccine. In response to the recovery in activity, several economies reduced fiscal and monetary stimulus that took place during the pandemic, especially because of concerns about the sustainability of spending and inflation. In Brazil, the year ended with 67% of the population immunized (two doses), and growth driven mainly by the global recovery and the increase in commodity prices. Record collections, the end of extraordinary expenses resulting from the pandemic and the growth of nominal GDP brought relief to the fiscal scenario and to the debt/GDP. For 2021, growth should reach just over 4%, but prospects are not very favorable for 2022. The labor market and the service sector continue to recover, but a restrictive monetary policy, combined with high household indebtedness, poses challenges for growth. Presidential elections in Brazil and less favorable international financial conditions add even more uncertainty to the scenario. The reform agenda – such as the tax and administrative ones – continues to be crucial for a more robust growth trajectory and for the fiscal sustainability of the Brazilian economy in the coming years.

Throughout the year, the mass vaccination and immunization of our employees allowed many to partially return to face-to-face work, and the hybrid system combined flexibility with the advantages of interactions in the work environment. Regular testing and the control protocols established by the bank were essential to prevent contamination by COVID-19 among our employees, and this year's experience and learning contribute to the return to normality of work in 2022.

Banco BOCOM BBM S.A., together with its employees, donated more than R\$150 thousand in projects aimed at mitigating the effects of the pandemic on low-income families, many of which are located in regions surrounding the Bank.

28. Events After the Reporting Period

(a) Corporate Change

In 2021, Banco BOCOM BBM announced the beginning of the process of transferring 20% of its shares to Bank of Communications, current holder of the remaining 80%. This will result in the exit of individuals that controlled the share capital of Banco BOCOM BBM, it is about a continuity of the shareholders's agreement entered into in 2016 between the former owners and the Bank of Communications (when the acquisition of the initial 80% occurred). The consumption of the operations is subject to the approval from the Brazilian and Chinese regulation authorities, with probable conclusion in about a year.

(b) Issuance of Subordinated Private Financial Bills

In February 2022, Banco BOCOM BBM issued 270 million in 10-year Subordinated Private Financial Bills, with a CDI rate plus 2.6% for institutional investors. According to BCB Resolution nº 122 the amount issued is eligible to be included in Reference Equity Level II.
